PROFILE

Full Stack Web Developer with extensive experience working under pressure and producing precise and efficient results. With my Background Working as a Head Sushi Chef, I'm able to combine my passion for detail in being a Chef with my passion for Coding. Earned a Certificate of Web Development Through the University of Arizona. I have proven ability in JavaScript, CSS, React.js and responsive web design. I am both eager and confident that I can bring creativity and have a positive impact at your company.

EXPERIENCE

Budget Tracker

[Live App](#)

Created using JavaScript, Express.js and MongoDB.

Implemented a service worker for offline functionality.

This application Helps users keep track of a set budget even without an internet connection.

Note Taker

[Live App](#)

Created using JavaScript and Express.js

Users are able to create, save and delete Notes at will.

The application saves your notes and stores them in a JSON file so the user can access them every time the application is loaded.

EDUCATION

University Of Arizona Coding Boot Camp

May 2020 — Oct 2020
